GAME DEVELOPMENT · DATA COLLECTION

Arts and Entertainment Technologies graduate from UT Austin, currently building training environments for household robotics at Sunday Robotics. Background in game design and world building, plus four years of hospitality and team-leadership experience – comfortable under pressure and on a deadline. Looking to keep working at the intersection of interactive design and emerging technology, on teams building things people actually use.

EXPERIENCE

Memory Developer

Sunday Robotics

Mar 2025 — Present
Corpus Christi, TX

- Design and build unique household environments used as training grounds for a domestic assistance robot.
- Capture training data with proprietary collection rigs — multi-sensor and multi-camera arrays.
- Translate real-world household variation into repeatable, high-quality training data.

Student Projects

University of Texas at Austin

Sep 2022 — May 2026
Austin, TX

- Developed a variety of video game prototypes including design, asset creation, and systems programming.
- Built an immersive motion-tracked experience in Unity using Qualisys Track Manager.
- Built a fictional world with a large team — history, culture, social structure, and environment.
- Designed an immersive exhibit for a live SXSW-style event.
- Collaborated with peers on an Arduino-based product solving a specific user problem.

Bartender & Server Trainer

Pluckers Wing Bar

Oct 2023 — Sep 2024
Austin, TX

- Served dozens of guests nightly and trained new servers on floor standards.
- Managed high-volume cash and credit transactions on Toast POS.

Bartender & Event Execution

Corpus Christi Wine Festival

Annual
Corpus Christi, TX

- Coordinated event logistics for thousands of guests across a multi-day festival.
- Ran VIP bar service, selecting and pouring premium wines for high-profile clientele.

Back of House Team Leader

Chick-fil-A

Aug 2021 — Jun 2022
Corpus Christi, TX

- Led kitchen operations under high volume; assisted management with scheduling and catering orders.

TECHNICAL SKILLS

Game engines	Unity, Unreal Engine
Programming	C#, C++, Python
3D	Blender
2D & video	Aseprite, Procreate, Photoshop, Davinci Resolve
Motion capture	Qualisys Track Manager
AI workflow	LLM-assisted prototyping and documentation
Productivity	Microsoft Office Suite (certified)

EDUCATION

B.S., Arts and Entertainment Technologies
University of Texas at Austin
Microsoft Office Certification
Del Mar College

STRENGTHS

Team collaboration · Written and verbal communication · Leadership and training · Steady under pressure
